BRIDGE THE GAP

Motivazioni al NO

- Senza motivazione
- Per motivi anatomo - fisiologici
- Idea culturale sbagliata che la donna sia inferiore
- la parità di genere non deriva dallo sport
- Il badminton in Italia è poco conosciuto per avere questo obiettivo

Motivazioni al SI con proposte per raggiungere la parità di genere

- Grazie alla disciplina del doppio misto
- Creare programmi per far rimanere le donne nello sport
- Il badminton è libero da "stereotipi sportivi"
- Proporre giornate promozionali con il "singolo misto"
- Pubblicità al femminile

Si può concludere questo lavoro notando sicuramente che:

- Il numero di donne attive nel mondo del badminton è ancora nettamente inferiore a quello degli uomini;
- Il divario di genere maggiore si trova in riferimento agli ufficiali di gara, ma comunque ogni categoria non supera il 40% di genere femminile, tranne che per la segreteria federale.
- Vista l'età dei partecipanti al sondaggio, non vi è stata adeguata collaborazione e condivisione dello stesso;
- La maggior parte dei partecipanti non ritiene necessario trasferirsi per praticare badminton.
- I ruoli maggiormente ricoperti sono quelli di atleta e di tecnico;
- N.5 regioni (Abruzzo, Emilia Romagna, Friuli Venezia Giulia, Umbria e Valle D'Aosta) completamente assenti al sondaggio.
